All participants **MUST INITIAL & SIGN** this **LIABILITY WAIVER** in order to be eligible for registration!

All students participating in field trips taught by the Department of Earth and Atmospheric Sciences should be aware that there is always an element of risk in such trips. These risks involve travel by vehicles, including commercial, state, and private vehicles, and in certain cases travel by canoes and rafts, walking as pedestrians on or near roadways, as well as strenuous hiking in mountainous terrains which are sometimes in remote areas. Instructors will use all reasonable precautions and students need to exercise prudent behavior during field trips, but even then there exists the possibility of an accident. Students need to assess their own physical abilities and not exceed their capabilities. Students must be alert and aware of possible risks and dangers during field trips.

### Policies, Rules & Regulations for ALL Participants

Read carefully and **initial each item** on the line provided. Your initial indicates *FULL* understanding and acceptance of each policy, rule &/or regulation.

- \_\_\_\_\_ All students are under the professional responsibility concerning the consumption of alcohol, as well as impairing drugs and medications. Drinking and Driving is a serious offense in Europe with many countries invoking draconian punishments even for first time offenders.
- \_\_\_\_\_ Smoking will NOT be permitted within cars or hotel / youth hostel rooms, only in designated areas allowed by foreign law. Smokers must plan accordingly. Because of eminent fire dangers in the many areas visited, absolutely NO smoking will be allowed during field hikes or outside designated areas. Students who smoke should be considerate of nonsmokers during field trips.
- \_\_\_\_\_ There will be strict enforcement of “quiet hours” according to hotel / hostel regulations. During this time, there will be no loud music, boisterous activity, or other disturbance allowed.
- \_\_\_\_\_ Students with medical problems, including but not limited to asthma and allergies, **must** consult with instructor prior to participating in field trips. Such students **must** carry appropriate medications with them AT ALL TIMES during the field trip. In case of a medical emergency during the field trip, such students must be prepared to pay for expenses incurred for their evacuation.
- \_\_\_\_\_ Students will exercise good common sense at all times and will ASK the instructor or other knowledgeable personnel when in doubt.
- \_\_\_\_\_ Students who violate any laws of the host country or who violate any of the field trip policies or stipulations or who fail to conform to directives from the instructor may be immediately dismissed from the field trip. The instructors have the right to terminate any student found in violation of these responsibilities, and such actions will terminate him or her from continuing on the trip. The fees already submitted shall be non-refundable in such cases. Terminated students must fly home on their own expense and are liable for any additional charges. Such students may also be subject to a failing grade in the course, be required to withdraw from the course, and be subject to disciplinary action by the College.
